Eudai 
DOCTOR-LED
WELLNESS CLINIC

Look youthful and
radiant with our facial
ageing solution

Welcome to Eudai Clinic

Eudai is a doctor-led anti-ageing clinic.

We strongly believe that internal validation, confidence and high self-esteem are crucial elements for health and our medical aesthetics clinics support this through the application of evidence-based treatments and medically-proven skincare advice.

Our team of medically trained professionals is led by our Medical Director Dr Dimi, who specialises in anti-ageing and longevity Medicine. Practising with honesty and integrity, Dr Dimi promises to prioritise your individual needs, putting you and your wellbeing first.

Together we've transformed the delivery of anti-ageing treatments, based on trust, innovation, and patient safety. We offer a holistic service and we only use products and services supported by scientific evidence.

A shared problem

The ageing process is natural and inevitable. However, the gains of experience and knowledge don't always align with a youthful appearance.

As we age, we lose volume from all the layers of our face. The facial contours become less defined, with elasticity and tightness being lost. Downward migration can make people feel stressed and unsatisfied as we no longer see ourselves in the same way when looking in a mirror. This might affect confidence and self-esteem can suffer.

Our core values

Patients come first in everything we do

As a medical practice, our patients' safety and wellbeing is our highest priority. We have the strictest protocols in place to ensure safe practice.

Results-driven

Nothing makes us more satisfied than meeting and exceeding our patients' expectations in the results and the service they receive.

Innovation

We always strive for greater results by embracing new ideas, products and services as they emerge. Because our patients deserve the best, we lead the way for others to follow with a pioneering approach.

Integrity, honesty and trust

Eudai is founded on strong principles and a guiding ethos. We are truthful, respectful, kind and professional in our approach, not only towards our patients, but also towards all our partners and staff members.

Inspire

We are passionate, motivated and driven and we aspire to be the change we want to see in the world. We want people to look up to us and feel inspired and empowered as they achieve their health and skincare goals.

What's included

Confidence is the key to beauty and so we take a holistic approach to aesthetics, in line with Dr Dimi's vision. Our goal is to help you feel fantastic.

Our revolumise package has been created with a focus on the root causes of facial ageing. We've included a full range of services so that you can enjoy the benefits of a natural and youthful appearance.

The ageing solution package includes:

- Dermal fillers - enhancing the support of natural facial structures and tissues to leave you looking more refined and youthful
- Anti-wrinkle injections - helping to smooth out wrinkles and reduce signs of skin ageing

Realising that every patient is different, we offer a bespoke skin treatment plan with individual guidance to support you in your journey towards happier and healthier skin. You'll be amazed by the healthy and invigorating transformation.

confidence

Confidence is the key to beauty and so we take a holistic approach to aesthetics, in line with Dr Dimi's vision. Our goal is to help you feel fantastic.

Key benefits

We make exclusive use of high-quality, prescription-only, and evidence-based skincare products, with choices based on your individual skin type and your priorities.

See the benefits of our total facial ageing solution:

- Long-lasting results that can be maintained with ease
- Flexible schedule requiring just a few hours of commitment per year
- Doctor-led programmes following best practice, with a commitment to patient safety

What to expect

This is an annual package that begins with a doctor-led consultation where we explore your concerns, form a diagnosis, and design a bespoke treatment plan.

Within the first three months, you will then be given a series of in-clinic professional treatments, reinvigorating your face and smoothing out wrinkles.

The process will continue with 'tweakments' and anti-wrinkle injections through the year to maintain long term, desirable results.

Regain the gift of youthfulness and revitalise your face.

What our patients say

Our services are individual to every patient, delivering you a personalised service that's catered to you.

If you have any questions about patient care and the services that we offer, please contact our team and let us reassure you with this glowing testimonial from one of our many satisfied patients.

“ I have never felt better cared for, more informed, and in safe hands. The results from the treatments really uplift my look and make me shine inside and out, both for my work, and personally. ”

Kes Cunningham

About Eudai Clinic

Eudai Clinic is the first of its kind anti-ageing and longevity clinic in the UK.

We are a doctor-led clinic that works with patients to help them optimise their health and wellbeing. Ageing can be a beautiful and healthy process and our aim is to help every patient live a full, fulfilling and happy life. We focus on all aspects of ageing from the inside out, ensuring that our patients look, feel and perform their best at any age.

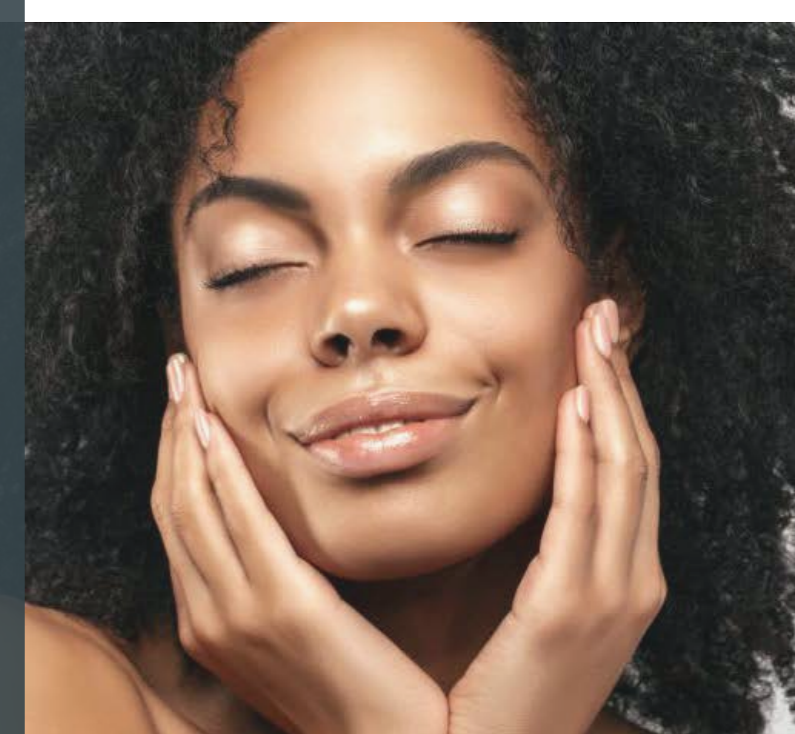

Our Aesthetics division

The Aesthetics division of Eudai Clinic offers a range of skin wellbeing and anti-ageing treatments.

Beauty is more than skin-deep; we believe that looking after our external appearance has multiple health benefits. Being happy in your appearance and ensuring your skin is in good health can boost confidence and self-esteem, protect mental health and release endorphins which make us feel good about ourselves. It can also help overcome social isolation and improve general health. For those reasons, Aesthetics plays a huge role in how we deliver healthcare to our patients.

We specialise in helping patients to match their internal health with their external health: Truly holistic medical care.

Dr Dimi

Founder and Medical Director of Eudai Clinic

Dr Dimi is a medical doctor with training in military, emergency and acute medicine who created Eudai to give people the tools and the mentoring they need to achieve optimal health. Meticulous in his practice and results driven, Dr Dimi strongly believes that health is the foundation of human happiness and therefore well worth pursuing.

Through Eudai Clinic, he designed a patient-centred model of care with a focus on patient safety, innovation and excellence that allows our patients to get the best possible results for their health, so they can start experiencing more fulfilment, confidence and success in their lives.

look your best,
feel your best,
be your best.
